It is intended by this Bill to extend the scope of the Hindu Law of Inheritance, as at present administered, by giving larger rights to women generally and to the members of a Hindu joint family and also to sister's sons and other heirs. As regards the existing rights of inheritance of women under Hindu Law, there is a large body of public opinion which desires that their position should be improved, especially that of daughters and widows. I have thought over the matter and consulted friends on the subject; and I must confess that while the desire to improve the position of daughters, sisters, sister's son and widows, to mention only a few of the heirs under Hindu Law, is strong in them, there is not only no consensus of opinion, as to what should exactly be their position and status, with respect to succession, but there is a great diversity and divergence of opinion. Some say that the giving of a share to women and a right to partition will tend to create disruption of the Hindu joint family system, and therefore suggest that only the value of the share should be given to them. Some are of opinion that, if the value of the share be given to them the husband, the father-in-law, or other male relations, as the case may be, of the daughter, the widow, and other female heirs, will have an incentive to appropriate it to themselves, in times of need. They, therefore, suggest the advisability of giving them an annuity and making it to enure for the benefit, if necessary, of their issue, wholly, or until their education is completed, or their marriage is over, or majority is attained. I had therefore to draft Bills, from time to time, on different considerations. At last, I considered it better to provide a share to these heirs.

One object I kept in view throughout was, not altogether to ignore the claims of reversioners, who seemed to me to be unpopular in the eyes of some of the present-day Hindus, with respect to their rights of succession. They were allowed rights on the ground that it is they who have, in the absence of nearer heirs, to promote the spiritual benefit, by offering oblations and *pinda* to the propositus, in cases where he dies issueless. My chief aim in not ignoring their claim is to give some importance to the offer of *pinda* and oblation, which most of the Hindus believe would tend to the spiritual benefit of the propositus.

NOTES ON CLAUSES.

In clause 2 of the Bill I provide for the daughter a share in the property of the father. My reason for this is, that, I consider, it is only just, for she shares, with sons, the same blood and has as good a place in her parent's affections as the sons.

As the Law at present stands, under the Mitakshara School of Hindu Law, if one of two undivided brothers dies first, leaving a daughter, and afterwards the surviving brother dies childless, the estate will pass to the collateral relations and not to the daughter of the first brother. But, under the Dayabhaga School, which obtains in Bengal the daughter would, at once, take the share of her deceased father. In this case, and circumstances such as these, the administration of Law, so far as the daughters governed by the Mitakshara

School is concerned, is felt to be a great hardship. I have therefore practically suggested that, in this respect, the law under Mitakshara should be brought into line, with that under Dayabhaga, and in those parts of the country where the Mitakshara prevails she should be allowed a definite share. The idea of allowing female issue a share in her father's estate is not altogether foreign to Hindu Law. If I remember aright, Yagyavalkya advocated a share to daughters.

The clause makes it clear that daughters shall have a share, irrespective of any circumstances, in which they may be placed. My reason for this is, there is a great variance in this matter in different parts of the country; and I consider these differences should not be kept up in the present conditions of things. There are certain castes, in certain parts of India, where there are local or family customs, by which a daughter is excluded from succeeding to the widow of her father.

In Bengal, incontinence will prevent a daughter taking the estate of her father. In other parts of India, virtue in the daughter is not considered essential for her to inherit; and it is not enforced in the case of any female heir other than a widow or wife.

Again, in a decision reported in the Bombay High Court Reports, it was stated that a daughter should be excluded from inheritance, in case she suffered from an incurable disease, on the authority of *Smriti Chandrika*, which based its views as to rights of daughters, upon religious principles; but the Madras High Court declined to accept this view. Similarly, with regard to other matters mentioned in the proviso, there is a great divergence of opinion. I consider that, in this matter, she should be given a right, unfettered by any conditions.

Proviso 1 allows daughters no equal share with sons, but only a moiety of their share. The reason for this distinction is that while both the son and daughter share their parent's blood equally and are equally high in the affections of their parents, one continues in the family and perpetuates the lineage of the father, the other passes out of it into a different family. On this account, I considered that a differentiation in the matter of the share was proper.

Proviso 2 deals with the cases of the rights of a widow, mother or father of a person to whose properties daughters succeed along with the sons or by themselves, when the father is devoid of male issue. Considering that a father is bound to maintain them irrespective of the possession of assets from their ancestors, it is only right they should not be altogether neglected by their grandsons (so far as the parents of the father are concerned) and by their sons (so far as their own mother or step-mother is concerned). I, therefore, thought it right, they should get a portion of the share provided for the daughters for their lives, with a reversion of the same to the daughters or on their default to their heirs.

Proviso 3 places the eldest daughter in the same position as the eldest son, so far as her right to succession to Impartible Estates, and to estates in which the Law of Primogeniture prevails, or in both; and in all cases where the father leaves no sons, it gives to the other daughters the same rights as to the younger sons left by the father, whose property is taken by the eldest son alone.

Clause 3 gives daughters in the share provided for her, absolute powers, except that in case where she inherits the whole property of her father, it is, in a certain proportion, divided between her sons and daughters as it is considered just, that the daughters also should get a small share in her mother's property, inherited by the latter, from her father, along with her sons. The son is necessarily provided with a larger share, as he gives *pinda* to his maternal grandfather, which daughters cannot do. In case of the failure of issue, or in case of the existence of only daughters, on the principle that those who give *pinda* to the maternal grandfather should be also benefited, I provided reversion of the whole share in the former case, and a half share in the latter case.

In cases where she has brothers and gets a fractional share, I provided that her children, and in their absence, her heirs, shall take her share and not the father's reversioners, as the father has male heirs to attend to his spiritual needs.

Clause 4 deals with the case of the widow's right. Under Dayabhaga school of law, a widow is entitled to the share of her husband for life. This is, of course, due to the fact that the law, as administered under Dayabhaga school, treats each member of an undivided family as a tenant in common and not as a joint tenant. Under Mitakshara school of law, the case is different; and a widow is entitled to maintenance from members of a joint Hindu family, though she succeeds to her husband's share, where he leaves self-acquired or separate property. It is proposed in this clause to follow the provisions of Dayabhaga in all cases. I know that there is a difference of opinion, on this matter, among those, who follow the rules of the Mitakshara. Whatever be the view taken the maintenance now allowed to the widows under Hindu Law as administered in parts other than Bengal, where Dayabhaga law prevails, varies from the full income of the share of the husband to a trifle, at the discretion of Courts. In order to give effect to her right to the full share of her husband's income, I provided that the share of the husband should be given to her for life, as in Bengal.

Proviso to clause 4 gives a widow, in cases where the husband leaves male issue, a share equal to that of a son for her life. I think it is only reasonable that the mother who was the mistress of the house before her husband's death, should be treated equally with a son in the matter of a share, though such share be limited for her life.

Clause 5 deals with the cases of sister, and sister's son. Both these are very hard cases deserving of great consideration.

In the case of a sister and her position as heir under Hindu Law, it has a chequered career. Mayne in his Hindu Law stated as follows: "She is said to have no religious efficacy whatever, as she cannot offer any oblations to her brother. Benares writers, while accepting her as a *sapinda*, by reason of

affinity, do not make her a *gotrasapinda*, as she passes into a strange *gotra* immediately on her marriage. A passage in *Sancha* and *Lachita* seems to affirm the right of a sister to succeed to her brother. Nandapandita and Balambhatta interpret the text of the Mitakshara, which gives inheritance to brethren, as including sisters, so that brothers take first and then sisters. The Bombay High Court, though it accepted this interpretation, does not fix her position in the line of heirs. But this is said to be opposed to the spirit of the Benares Law. Her position now stands as follows. In Bombay her right to succeed to the brother is beyond dispute. In Bengal and Benares, she has no right. In Madras, her right was recognised a few years ago and she is placed, even where she is recognised as heir, very far away from daughters and brothers." This, I consider, is very unjust.

Similarly with regard to sister's son, the same high authority says that "he has suffered and been suffering grave injustice in the matter of his right of inheritance. Among the *Bandhus* who are omitted by the Mitakshara, the sister's son has had the severest struggle for existence, having even run the gauntlet of an adverse decision from the Privy Council. His right has always been recognised under Bengal Law. She is expressly named by the Dayabhaga. In the provinces governed by Mitakshara (not including Western India) it was supposed that she had no claim and this view was put forward almost unanimously by Text writers, Pandits, and Judges. The decision of the Bengal High Court was afterwards followed by the Madras High Court and in the High Court of the North-Western Province." In the circumstances I thought it would be only right to advance their ranks in the order of succession.

Clause 6 deals with the right of women to claim partition. "In former times," according to Mayne, again "when partitions were made, interests of women were much better provided for, than at present. When partition took place at father's death, the mother and the grandmother were each entitled to a share equal to the sons and the unmarried daughters each to a fourth share. If sons chose to remain undivided, they had a right to do so. Women could never compel a division. This still obtains where the father leaves male issue." To me it looks unreasonable and unjust to give woman a right to division and yet place restrictions thereon. I therefore provided for this right.

In spite of all this, the sister and sister's son were recognised by decisions to be *mere* heirs. This is hardly fair. They deserve to be brought much nearer than they are at present in the matter of their rank in the order of succession. What is after all the difference between a brother and sister, except it be their sex ? While one continues in the *gotra*, the other goes out of it. The same thing may be stated with regard to the brother's son and sister's son. So far as the blood relationship is concerned, one is as near to the propositus as the other. In the case of the sister's son he is in a position to attend to the spiritual necessities of his maternal uncle. I therefore think it is only right that these two heirs, the sister and her son should be promoted and allowed to rank at least after the brother's grandson. I, therefore, suggest that these be ranked as provided for in the order of succession.

Clause 7 deals with the right of alienation by a member of a joint Hindu family to dispose of his share of property as he likes. At present, an alienation by him is invalid, unless he was divided or had declared, in an unequivocal manner, his intention to divide or separate (*vide* 31 M. L. J. 55 P. C.; 43 I. A. 15). If he so likes, just before he devised his property, he could make this declaration and then his disposition is held to be valid. In these circumstances, there is no meaning in saying that a coparcener has no right to devise property, when he can do it by means or merely making an unequivocal declaration.

The following Bill was introduced in the Legislative Assembly on the 26th September 1929:—

L. A. BILL No. 36 OF 1929.

A Bill further to amend the Indian Penal Code.

WHEREAS it is expedient further to amend the Indian Penal Code; XLV of 1860.
It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Penal Code (Amendment) Act, 192 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on the first day of April, 192 .

Insertion of new section 317A in Act XLV of 1860.

2. After section 317 of the Indian Penal Code the following section shall be inserted, namely:— XLV of 1860.

Punishment of putative father as abettor of offence by mother under section 317.

"317A. Whenever the mother of an illegitimate child, below the age of twelve years, shall expose or leave such child in any place with the intention of wholly abandoning such child and is convicted under section 317 of this Act, or of murder or culpable homicide, as the case may be, if the child dies in consequence of the exposure, the putative father of the child shall be charged with abetment of the offence for which the mother has been accused or convicted, and shall be presumed to be guilty until the contrary is proved, and he shall be punished with imprisonment of either description for a term which may extend to seven years, or with fine, or with both."

STATEMENT OF OBJECTS AND REASONS.

Man-made laws have at times been extremely harsh on women folk. A woman often suffers special obloquy and even gets outcasted if she becomes a mother through free love while in unmarried or widowed state. To save herself from social ostracism often she has recourse to exposure of the child of the illicit love on the roadside. At times the poor mother has not the wherewithal to support the child and social ostracism forces her to abandon the child. The law—man-made law it is in every case—provides for exemplary punishment to the unfortunate woman, but the real culprit—man who seduced and abandoned the helpless girl and the innocent child in their deplorable state—goes unpunished. The present Bill, if passed into law, will hold the putative father equally guilty for the murder of the innocent child, and he shall be liable to receive equal punishment with the mother. Incidentally such a deterrent law will minimise seduction of helpless widows and maidens, and illicit love will be a forbidden fruit.

COVERNMENT OF INDIA.

The following Bill was introduced in the Legislative Assembly on the 26th September, 1929 :—

L. A. BILL No. 39 OF 1929.

A Bill further to amend the Indian Electricity Act, 1910, for certain purposes.

WHEREAS it is expedient further to amend the Indian Electricity Act, 1910, for certain purposes hereinafter appearing; It is hereby enacted as follows :— IX of 1910.

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Electricity (Amendment) Act, 192 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on the 1st day of January, 1929.

Amendment of section 37, Act IX of 1910.

2. In clause (*b*) of sub-section (*2*) of section 37 of the Indian Electricity Act, 1910, after the words "regulate the publication of notices" the words "in any newspaper published in the area of supply, or, in absence of the same, in a newspaper published in the province," shall be inserted. IX of 1910.

STATEMENT OF OBJECTS AND REASONS.

Section 37 of the Indian Electricity Act, 1910, empowers the Governor General in Council to make rules to regulate generation, transmission, supply and use of energy, and, generally, to carry out the purposes and objects of the Act, and the Indian Electricity Rules of 1922 were framed for that purpose.

Applicants for an electric licence to supply in any area of supply are required to advertise the draft licence in three successive issues of the same newspaper published or circulated in the proposed area of supply. This loophole "circulated in the proposed area of supply" leads to many abuses. Advertisements have appeared in newspapers published outside the province even. That was not the purpose of the Act or Rules. With the attainment of provincial autonomy, it should be only natural to expect that such notices should be advertised in newspapers published in the town or in the province. The provision in the rule "or in such newspapers as the Local Government may approve" covers the second alternative.

I may add here that the Bill, if passed into law, will necessitate an amendment of Rule 13, clause 3, to the following effect:—

In Rule 13, clause 3, omit "circulated" after the words "in at least three successive issues of same newspapers published."

REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT IN BENGAL DURING THE THREE YEARS ENDING THE 31ST MARCH 1929.

NOTIFICATION.

No. 720 S.R.—8th November 1929.—The following extracts from the Report on the administration of the Stamp Department in Bengal during the three years ending 31st March 1929, are published for general information.

S. K. HALDAR,

Deputy Secy. to the Govt. of Bengal.

I am directed to submit for the information of the Government of India the following report on the administration of the Stamp Department in Bengal during the three years ending the 31st March 1929.

* * * * * *

Financial results.

3. The receipts which in 1925-26, the last year of the preceding triennium; were Rs. 3,67,18,643 fell to Rs. 3,40,33,282 in 1926-27 and to Rs. 3,55,63,916 in 1927-28. During the last year of the period under review the receipts, as reported by the Accountant-General, Bengal, plus Rs. 5,91,248 paid to the Calcutta Improvement Trust being the collection of the increased stamp duty leviable under section 82 of the Calcutta Improvement Trust Act, 1911, and Rs. 11,30,000, being the provincial share of the sale-proceeds of unified stamps credited to non-postal revenues, amounted to Rs. 3,64,48,439, an increase of Rs. 8,84,523 or 2·5 per cent. as compared with receipts in 1927-28 and of Rs. 24,15,157, or 7 per cent. over those of 1926-27. The increase occurred both under judicial and non-judicial stamps.

* * * * * *

A.—Judicial stamps.

5. The sale-proceeds of court-fee stamps (excluding stamps for copies) rose steadily during the past three years. The receipts during 1928-29 were Rs. 2,16,81,520 against Rs. 2,09,80,944 in 1927-28 and Rs. 1,99,06,495 in 1926-27. Compared with 1927-28 there was an increase in 1928-29 of Rs. 7,00,576 which was shared by all the divisions. The largest increase Rs. 2,67,041 was contributed by the Dacca Division owing, it is said, to increase in litigation.

The receipts from the sale of stamps for copies also rose from Rs. 8,75,642 in 1926-27 to Rs. 9,56,564 in 1927-28 and to Rs. 9,71,661 in 1928-29.

The receipts from the sale of plain paper used with court-fee labels rose from Rs. 3,47,362 in 1926-27 to Rs. 3,50,673 in 1927-28 and to Rs. 3,48,644 in 1928-29.

B.—Non-Judicial stamps.

6. The revenue derived from the sale of non-judicial stamps during 1928-29 amounted to Rs. 1,34,40,746 and showed an increase of Rs. 1,80,262, or 1·4 per cent. as compared with 1927-28 and of Rs. 5,36,210, or 4·2 per cent. as compared with that of the first year of the triennium. The increase occurred mainly under the heads of "Impressed Stamps" and "Miscellaneous Receipts."

7. **Impressed stamps.**—The receipts from the sale of impressed stamps (the most important item among non-judicial stamps) showed a progressive increase during the past three years. The revenue which amounted to Rs. 68,10,283 in 1926-27 rose to Rs. 71,84,476 in 1927-28 and to Rs. 74,64,231 in 1928-29. The growth in revenue was shared by all the divisions except the Presidency and the Burdwan. The increases in the districts of Mymensingh, Tippera and Rangpur are noticeable being 16·7, 14·4, 9·6 per cent., respectively, in 1928-29 over the receipts of 1927-28 and are due to the registration of a larger number of documents.

8. **Hundis or inland bills of exchange.**—The revenue derived from the sale of hundi or bill-of-exchange stamps rose from Rs. 1,44,683 in 1926-27 to Rs. 1,50,008 in 1927-28, but in 1928-29 fell to Rs. 1,36,847. The decrease is due to the fluctuation of trade and to the opening of banks and loan offices.

9. **Impressed labels or special adhesive stamps.**—The receipts from the sale of these stamps showed a progressive increase during the last three years. The receipts which amounted to Rs. 26,34,198 in 1926-27 rose to Rs. 28,52,991 in 1927-28 and to Rs. 28,97,137 in 1928-29. The sale of these stamps is mainly confined to Calcutta which contributed 99·9 per cent. of the total revenue from this source.

10. **Foreign bill stamps.**—The receipts from these stamps, which are sold mainly in Calcutta, amounted to Rs. 3,65,818 in 1928-29 against Rs. 3,77,668 in 1927-28 and Rs. 3,72,444 in 1926-27. The decrease was probably due to the comparative depression of trade.

11. **Share transfer stamps.**—The sale of these stamps, which are used for payment of stamp duty on transfer of shares of public limited companies, is practically confined to Calcutta. The revenue rose from Rs. 6,86,182 in 1926-27 to Rs. 8,17,215 in 1927-28, but fell to Rs. 6,38,310 in the last year of the triennium. The noticeable increase of Rs. 1,31,033 in 1927-28 is due to better trade conditions prevailing in Calcutta during the year and to increased speculation.

12. **Stamps for legal practitioners' licenses.**—The receipts from the sale of these stamps rose from Rs. 2,21,839 in 1926-27 to Rs. 2,46,618 in 1927-28, but fell to Rs. 2,38,812 in the last year of the triennium.

13. **Notarial stamps.**—These stamps were sold only in Calcutta and Chittagong during the triennium. The sale of last year amounted to Rs. 7,112 in comparison with Rs. 9,652 and Rs. 9,892 in the two previous years.

14. **Forms for agreements and contracts chargeable with two-anna coloured impressions.**—The revenue from this source, which is confined to Calcutta only, rose from Rs. 8,660 in 1926-27 to Rs. 8,668 in 1927-28 and to Rs. 9,243 in 1928-29.

15. **Forms for cheques and receipts.**—The sale of these forms, which are stamped with one-anna coloured impressions, brought in Rs. 3,08,700 in 1926-27, but the receipts fell to Rs. 73,037 and Rs. 53,213 during 1927-28 and 1928-29 respectively. The abolition of stamp duty on cheques, with effect from the 1st July 1927, was responsible for the large decline in the receipts of the last two years.

16. **Miscellaneous receipts.**—The receipts under this head were mainly derived from the duty and penalty realised under sections 32, 35, 37, 40 and 41 of the Stamp Act, 1899. The income from these sources fell from Rs. 5,77,655 in the first year of the triennium to Rs. 4,60,151 in 1927-28, which again rose to Rs. 5,00,523 in 1928-29. The bulk of the revenue under this head is contributed by Calcutta.

17. **Arrangements for the sale of stamps.**—* * * * * * * * * * * The total number of vendors engaged in the sale of judicial and non-judicial stamps during the year 1928-29 was 5,665 against 5,539 and 5,377 in the previous two years. The expenditure on discount allowed to stamp vendors during 1928-29 was Rs. 4,75,374 which exceeded that of the two previous years by Rs. 11,591 and Rs. 31,383, respectively. The increase was due to the increased sale of stamps both judicial and non-judicial. The average discount per vendor during the triennium under report was Rs. 83 against Rs. 84 in the preceding period.

* * * * * *

18. **Punitive action of the Courts and Revenue officers.**—*

* * * * * *

* * The total number of cases dealt with by the Civil Courts increased from 1,371 in 1926-27 to 1,443 in 1927-28 and to 1,794 in the last year of the triennium. The duty and penalty realised by the Civil Courts increased also from Rs. 12,385 in 1926-27 to Rs. 13,870 in 1927-28 and to Rs. 14,003 in 1928-29. The number of

cases dealt with by Revenue offices fell from 4,161 in 1926-27 to 3,845 in 1927-28 and to 4,026 in the last year of the triennium. The amount of duty and penalty realised in these cases amounted to Rs. 1,00,734 in 1928-29, as compared with Rs. 66,405 and Rs. 1,60,223 in 1927-28 and 1926-27 respectively.

19. * * * * * . The number of cases instituted, as well as persons brought to trial, steadily increased during the triennium, viz., 145 cases involving 163 persons in 1926-27, 161 cases with 179 persons in 1927-28, and 180 cases with 202 persons in 1928-29. The fines imposed during the last year of the triennium amounted to Rs. 4,151 against Rs. 4,797 in 1927-28 and Rs. 3,138 in 1926-27. The amount paid in rewards in 1926-27 was Rs. 1,770 which rose to Rs. 2,999 in the following year and to Rs. 2,947 in the last year. No rewards were paid outside Calcutta.

20. **Working of section 19 H added to the Court-fees Act, VII of 1870, by Act XI of 1899.**—* * * * * * * * * * * * . The number of cases pending at the beginning of the year 1928-29 was 788 against 634 and 431 in the previous two years respectively. The number of cases reported to the Collectors rose from 1,427 in 1926-27 to 1,557 in 1927-28 which, however, fell to 1,402 in the last year of the triennium. The number of cases in which enquiries were instituted during the year 1928-29 was 1,925 against 1,952, and 1,707 in 1927-28 and 1926-27 respectively. The number of enquiries completed during 1928-29 was 1,531, as compared with 1,423 and 1,202 in the previous two years. The amount of deficit court-fees realised fell from Rs. 2,88,623 in 1926-27 to Rs. 1,73,556 in 1927-28 and to Rs. 1,71,492 in the last year of the triennium. Of the cases reported during the year 1928-29, including those pending at the beginning of the year, 69·9 per cent. were completely enquired into, the corresponding percentages in the preceding two years being 64·9 and 64·7 respectively. The proportion borne by the deficit duty required to the amount originally realised was 12 in 1928-29 against 14·8 and 17·5 in the two preceding years respectively.

In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

(*c*) A statement of all outstanding loans specifying in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

(*a*) The ordinary surplus is not quite sufficient to meet the charges of the proposed loan but the interest with the capital would be met from the water-rate.

(*b*) The municipality expects a substantial increase to its income by the imposition of water-rate and the Municipal Commissioners expect to introduce holding tax in place of personal tax if possible.

(*c*) A loan of Rs. 3,667 was taken from Government on the 5th February 1923 to meet the cost of constructing mothers' sheds for thirty years re-payable in thirty equal annual instalments of Rs. 295-8-2, and out of it six instalments have already been paid. The loan was sanctioned by Government of Bengal, Local Self-Government Department, Local Self-Government Branch, No. 208L.S.-G., dated the 30th January 1923.

(*d*) From the informations supplied in paragraphs (*a*) and (*b*) above it is evident that there would be no difficulty for the re-payment of loan with interest in future.

[**Sixth publication.**]

No. 41-I.—3rd October 1929.—The following draft of rules and schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix for the khal known as the first side-cut along the Schillarganj Char Duani Road, joining Nali Done in the south and Shapleza khal in the north, in the Perojpur subdivision of the Bakarganj district, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 28th November 1929, and any objections or suggestions received before that date will be considered.

Draft Rules and Schedule of Rates of Tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the

interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessel of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds ..	Four annas.
(2) On all vessels empty or laden, for 12½ maunds or less ...	One-half anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth ...	Two annas each raft.

Tolls will be levied at Nali and Shapleza.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

CALCUTTA, *the 8th November 1929.* A. MAJID, *Registrar, Calcutta.*

The following is published in the *Calcutta Gazette* for general information —

To His Excellency the Governor of Bengal

In the matter of an election petition under Part VII of the Bengal Electoral Rules and other Rules and Regulations

and

In the matter of an election to the Bengal Legislative Council from the North Bakarganj Muhammadan Constituency

and

In the matter of Maulvi Rahim Bux Salem, of Bejoypur, police-station Doulatkhan, district Bakarganj, petitioner

versus

(1) Maulvi Mahammad Hussain, of Bhashanchar, police-station Mehendiganj, district Bakarganj, at present a pleader at Barisal,
(2) Maulvi Hashemah Khan, pleader, Barisal,
(3) Maulvi Fazlal Karim Chowdhury, of Ulania, police-station Mehendiganj, Bakarganj,
(4) Maulvi Khorshed Alam Chowdhury, of Ulania, police-station Mehendiganj, Bakarganj,
(5) Maulvi Syed Azizar Rahaman, of Batamara, police-station Barhanaddi, Bhola,
(6) Mr Hutchins, Returning Officer, Bakarganj,

respondents.

The humble petition of Maulvi Rahim Bux Salem aforesaid,

Most respectfully sheweth —

1 That your petitioner was a duly nominated candidate at the last general election for the Bengal Legislative Council from the Bakarganj (North) Muhammadan Constituency and the aforesaid respondents Nos (1), (2), (3), (4) and (5) were also candidates for the said election. The respondents Nos (2-5) withdrew their candidature subsequently Respondent No. (6) was the Returning Officer.

2 That the result of the polling which took place on the 1st and 5th June 1929 was as follows :—

	Votes.
(*i*) Maulvi Mahammad Hussain ..	2,364
(*ii*) Maulvi Rahim Bux Salem ..	2,307
Rejected	38
Missing	1

3. That the respondent No. (1) was declared as duly elected.

4 That your petitioner submitted his return of election expenses on the 20th July 1929

5 That your petitioner begs to submit that the said election of the respondent No (1) is illegal, void and liable to be set aside on the following grounds :—

GROUNDS.

(*i*) That Batamara Hat and Safipur Mian Bari were declared and published to be two of the polling stations for the 5th June 1929, but no polling was held at either of these two stations, there being no such place as Batamara Hat at all

(*ii*) That, at the instance of the respondent No. (1) and his agents and men, the elections that were to take place at Batamara Hat and Safipur Mian Bari were actually held at Ramchar Hat, in a different mauza, and at the Safipur Board School, far away from Safipur Mian Bari.

(*iii*) That in consequence of the sudden shifting of the polling centres without any previous notice the voters, who would have voted for your petitioner, were seriously misled and could not record their votes at all and your petitioner lost about 150 votes on this account.

(*iv*) That the Presiding Officer or the Polling Officers had no authority to change the place of voting which were already notified as polling centres and they had no authority to select a new place as polling station.

(*v*) That no secrecy in the matter of recording votes was observed at either of these two stations—the votes being recorded in one case in an open ground—without any roof or enclosure in a part of the Ramchar Hat, on the hat day, and in other case in the open verandah of the Safipur Board School. The votes recorded at these two places ought to have been rejected.

(*vi*) That the Presiding Officer at Udaypur polling station refused to record the votes of more than 40 voters on more technical defects in pronunciation of their names or in omitting the words as "Howladar", "Munshi" "Miji," etc., which are generally added to the names in writing but are generally omitted when one speaks of his own name About 40 votes that would have been recorded in favour of your petitioner were thus refused to the serious prejudice of your petitioner. The names of voters whose votes were thus rejected were marked with "R" by the Presiding Officer.

(*vii*) That the respondent No. (1) and his agents and men engaged on his behalf promised, offered and distributed illegal gratifications and bribes and rewards and donations in many places to seriously influence the voters in favour of respondent No (1) and against your petitioner and persuaded many voters to refrain from voting for your petitioner

(*viii*) That the respondent No (1) and his agents and men treated the voters with food, sarbat, drink, pan, cigarettes and sweetmeats in many places

(*ix*) That the respondent No. (1) and his agents and men on his behalf paid boat hires, motor hires for the conveyance of the voters to and from the polling station.

(*x*) That the return of election expenses filed by the respondent No. (1) is not correct and is full of falsifications. He has not shown the actual receipts and expenditure incurred by him or his agents and men

(*xi*) That your petitioner states that the respondent No. (1) by himself or by his agents and other persons acting on his behalf and with his knowledge or connivance was guilty of bribery, treating undue influence, personation, publication of false statements, illegal hiring and use of motor cars and boats, illegal payment and other corrupt and illegal practices in contravention of the electoral laws, rules and regulations before, during and after the said election.

(*xii*) That the nomination paper of the respondent No. (1) should have been rejected by the Returning Officer, respondent No. (6), as in the electoral roll his father's name did not appear and it could not be ascertained if he was the real person whose names appeared in the electoral roll as Mahammad Hussain.

(*xiii*) That the respondent or his agents and men appointed on his behalf printed and published pamphlets and posters and hand bills without the name and address of the printer and publisher thereof, the pamphlets containing indirect insinuation against your petitioner and thereby seriously prejudicing your petitioner's election

(*xiv*) That your petitioner craves leave to submit further instances, if he is so advised, of corrupt practices which may come to his knowledge in future.

6 That your petitioner begs to deposit the sum of Rs 1,000 as security for the costs of the petition under rule 35 of the Bengal Electoral Rules The chalan showing the deposit is enclosed herewith

7 That your petitioner accordingly prays that Your Excellency may be graciously pleased to appoint Commissioners for the trial of this petition and after such inquiry as may be necessary and on the report of the said Commissioners, Your Excellency may be pleased—

(*i*) to set aside the aforesaid election,
(*ii*) to disqualify the said respondent No (1) under the electoral rules for being guilty of corrupt practices,
(*iii*) to declare your petitioner as duly elected,
(*iv*) to reject the votes recorded at Ramchar Hat and Safipur Board School and recount the votes, and
(*v*) to allow your petitioner the costs of and incidental to this petition, or
(*vi*) to pass such other or further orders as to Your Excellency may seem fit and proper.

And your petitioner as in duty bound shall ever pray

VERIFICATION.

I, Maulvi Rahim Bux Salem, petitioner abovenamed, say that the contents of the above paragraphs are true to information received which I believe to be true and I sign this verification at Barisal this 2nd day of August 1929.

RAHIM BUX SALEM.

List of corrupt practices referred to in paragraph of the petition.

The petitioner herein relies on the following among other corrupt practices committed by the respondent No. (1) or his agents and other persons acting on his behalf or with his knowledge and connivance :—

(*a*) Payment of a sum of money paid to the Secretary or the Managers of the School at Gangapur.

A

Preamble.

WHEREAS it is expedient further to amend the Bengal Food Adulteration Act, 1919, in the manner hereinafter appearing ; Ben. Act VI of 1919.

2. In section 6 of the Bengal Food Adulteration Act, 1919 (hereinafter referred to as the said Act)—

(*b*) after clause (*i*) the following clause shall be inserted, namely :—

" (*ia*) in the case of condensed, sterilized or desiccated milk in hermetically closed receptacles each such receptacle shall be labelled and marked in such manner as the Local Government may prescribe and the article sold, exposed for sale or stored for sale, as the case may be, shall not contain a less proportion of non-fatty solids and of fat than such as the Local Government may prescribe ";

(*4*) in sub-section (*4*) after the words " of that sub-section " the words " or the food referred to in sub-section (*2a*) " shall be inserted.

Repeal of section 8.

3. Section 8 of the said Act is hereby repealed.

Amendment of section 20.

4. After clause (*b*) of sub-section (*2*) of section 20 of the said Act, the following clause shall be inserted, namely :—

"(*bb*) specifying the manner in which each receptacle containing condensed, sterilized or desiccated milk sold, exposed for sale, or stored for sale, is to be labelled and marked, including the size of the lettering, the description of the contained article, its composition and directions for use."

The Bengal Food Adulteration (Amendment) Bill, 1929.

(Clause 5.)

Amendment of section 21.

5. In the table in section 21 of the said Act,—

(*1*) to the entry relating to sub-section (*1*) of section 6 the following shall be added in the second column, namely :—

" or is not labelled or marked in the prescribed manner "

(*2*) after the entry relating to sub-section (*2*) of section 6, the following shall be inserted, namely :—

" Section 6, sub-section (*2a*).	Sale, etc., of food containing any article which is not of the prescribed quality.	Two hundred rupees.	One thousand rupees or imprisonment for three months or both ;"

(*3*) the entry relating to section 8 shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

In the United Kingdom the sale or exposure for sale of condensed milk is prohibited unless the receptacle containing the milk bears a label to show to what extent dilution is necessary and whether the milk when so diluted will contain sufficient butter fat to be fit for babies. A great deal of condensed milk of various brands is imported into this country ; some kinds are full of cream and some are skimmed. The label generally contains a description, but it is rarely prominent. Illiterate purchasers can seldom distinguish between the different brands ; and as the skimmed variety is injurious to bottle-fed infants brought up on it, legislation is necessary to control the sale of such milk. Section 6 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919) which deals with constituents of food in the mufassal, excludes condensed, sterilized and desiccated milk from its operation. It is therefore proposed to amend section 6 of the said Act so as to bring condensed, sterilized, and desiccated milk within its purview and to forbid the sale or exposure for sale of such milk if it contains a less proportion of non-fatty solids and of fat than such as may be prescribed by the Local Government. Power has also been taken to make rules specifying the manner in which each receptacle containing condensed, sterilized, or desiccated milk is to be labelled and marked.

It has been held that section 6 of the Bengal Food Adulteration Act, 1919, does not apply to the sale of sweetmeats containing adulterated ingredients, the sale of which by themselves would be punishable under that section. It is therefore also proposed to amend section 6 of the Act, so as to bring within its purview the sale of sweetmeats or other articles containing such adulterated ingredients.

NOTIFICATION.

No. 2885L., dated Calcutta, the 15th November, 1929.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons, which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.—

THE BENGAL MUNICIPAL (AMENDMENT) BILL, 1929.

A

BILL

further to amend the provisions of section 85 of the Bengal Municipal Act, 1884.

WHEREAS it is expedient further to amend the provisions of section 85 of the Bengal Municipal Act, 1884, so as to authorise the levying of an increased rate on the annual value of holdings in the Kurseong Municipality.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Municipal (Amendment) Act, 1929.

Amendment of section 85 of Bengal Act III of 1884.

2. In the first proviso to clause (*b*) of section 85 of the Bengal Municipal Act, 1884, after the word "Dacca" the word "Kurseong" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The income of the Kurseong Municipality from sources other than water-rate and latrine fees is insufficient to cover the municipal expenditure on general purposes. Consequently the municipal commissioners have had to borrow from the Water Fund and the Latrine Fund in order to find money for outlay on general administration. As this procedure is quite irregular it is necessary to increase the income of the municipality from sources not earmarked for expenditure on particular objects. It is accordingly proposed to empower the municipal commissioners to assess the rate on holdings at 10 per cent. of the annual value as in Howrah, Darjeeling and Dacca, instead of the normal maximum of 7½ per cent. It is at the same time proposed to reduce the water-rate from 7 and 3½ per cent. to 5 and 2½ per cent.

STATEMENT OF OBJECTS AND REASONS.

It is proposed to amend the Bengal Food Adulteration Act, 1919, so as to bring under regulation condensed sterilised and desiccated milk which at present is excluded from the provisions of section 5 of the Act. In order to make the practice in Calcutta and the mufassal uniform it is desirable that the corresponding provisions of the Calcutta Municipal Act, 1923, *viz.*, section 407 should also be amended. The present Bill provides for this. Opportunity has been taken to make a further amendment desired by the Corporation forbidding the use in butter of any preservative but salt.

2. Opportunity has also been taken to make the following amendments in the Act. These are all in the nature of drafting amendments and as such are non-controversial:—

(*a*) sub-section (*4*) with the proviso, of section 45 of the Act, which is meaningless, has been expunged and a new sub-section has been inserted to make the intention clear; consequential amendments have been made in section 49 and the heading to Schedule III;

(*b*) the mistake whereby section 26 instead of section 11 of the Land Acquisition Act, 1894, is mentioned in proviso (*i*) to section 475 has been corrected;

(*c*) the omission of the word " Ditto " from column 3 against entry No. 56 in Schedule VI of the Act has been rectified;

(*d*) the clerical mistake in the heading of Schedule XVIII has been corrected.

(*2*) When an employee participating in such fund is paid the accumulated balance due to him therefrom, any portion of such balance as represents his share in the amount so transferred to the trustee (without addition of interest, and exclusive of the employee's contributions and interest thereon) shall be deemed to be an expenditure by the employer within the meaning of clause (*ix*) of sub-section (*2*) of section 10, incurred in the year in which the accumulated balance due to the employee is paid.

Provisions relating to rules.

58L. (*1*) All rules made under this Chapter shall be subject to the provisions of sub-sections (*4*) and (*5*) of section 59.

Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 26th September, 1929:—

L. A. BILL No. 24 OF 1929.

A Bill to finally recognize and place beyond doubt the validation of inter-marriage of Arya Samajists.

WHEREAS it is expedient to finally recognize and place beyond doubt the validation of inter-marriage of Arya Samajists; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Arya Marriage Validation Act, 192 .

(*2*) It shall apply to the whole of British India and shall apply to all cases that may come up for decision after the passing of the Act whether the marriage in question has taken place before or after the passing of this Act.

Definition.

2. For the purpose of this Act "Arya Samajist" shall mean a person who—

(*a*) is a member of any Arya Samaj; or

(*b*) is a member of the family of, or a relative dependent on, or a person under the guardianship of, any person mentioned in clause (*a*);

(*c*) within five years of the passing of this Act or within one year of his marriage (whichever period expires last) executes a written document expressing himself to be an Arya Samajist or in terms equivalent thereto; and includes the members of the family of, relatives dependent on, and persons under the guardianship of, such a person.

Explanation.—Where the document mentioned in clause (*c*) is registered under the Indian Registration Act, 1908, it shall be conclusive and no evidence shall be admissible to prove that any person mentioned in clause (*c*) is not an Arya Samajist. XVI of 1908.

Validation of inter-marriage of Arya Samajists.

3. No marriage of an Arya Samajist shall be invalid by reason of the couple having belonged to different castes or sub-castes of Hindus or to different religions, any law or usage or custom to the contrary notwithstanding.

STATEMENT OF OBJECTS AND REASONS.

As the Arya Samajists who form quite an appreciable number of the Indian population conscientiously believe that the present caste system is not in accordance with their scriptures, the Vedas, and as according to the law as administered at present marriages among couples belonging to different castes or sub-castes are considered invalid and there is a fear of the issue of such marriages being declared illegitimate and as quite a large number of such marriages have taken place and more would have taken place had there been no such obstacles, it is necessary to have a law which would give relief to the Arya Samajists. Hence the above short law is proposed.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 26th September, 1929:—

L. A. BILL No. 37 OF 1929.

A Bill further to amend the Special Marriage Act, 1872.

WHEREAS it is expedient further to amend the Special Marriage Act, 1872; It is hereby enacted as follows:— III of 1872.

Short title. **1.** This Act may be called the Special Marriage (Amendment) Act, 192 .

Amendment of preamble to Act III of 1872. **2.** In the preamble to the Special Marriage Act, 1872 (hereinafter referred to as the said Act), III of 1872.

(*i*) after the words "a form of" the word "civil" shall be inserted;

(*ii*) after the words "for persons" the words "domiciled in British India" shall be inserted; and

(*iii*) the words "who do not profess the Christian, Jewish, Hindu, Muhammadan, Parsi, Buddhist, Sikh or Jaina religion" shall be omitted.

Amendment of section 2, Act III of 1872. **3.** In section 2 of the said Act,—

(*i*) the words "neither of whom professes the Christian or the Jewish, or the Hindu or the Muhammadan, or the Parsi or the Buddhist, or the Sikh or the Jaina religion" shall be omitted; and

(*ii*) after the words "between persons" the words "domiciled in British India" shall be inserted.

Amendment of clause 2, Second Schedule to Act III of 1872. **4.** In the Second Schedule to the said Act, for clause 2 in the Declarations to be made by the bridegroom and the bride, respectively, the following shall be substituted, namely:—"I am domiciled in British India".

STATEMENT OF OBJECTS AND REASONS.

The laws of all civilised countries provide for the contract of civil marriage by persons who may so desire. The disability to contract such marriages in India is merely territorial and there is no reason why a similar law should not be enacted for this country. The enactment, if passed, would be merely optional and leaves intact the existing personal laws which control the performance of marriages.

The reasons which have induced me to draft this Bill are as follows:—

Sir Henry Maine as Law Member of the Governor General's Council had introduced a Civil Marriage Bill; but, as the Government were then immediately concerned with an enactment to prescribe a civil form of marriage applicable only to Brahmos by whom they were moved for the enactment of a secular law to enable them to contract marriages, its provisions were so limited in the Bill which became Act III of 1872.

In 1909, the late Mr. Bhupendra Nath Basu and later on Dr. H. S. Gour had also introduced a similar Bill, but its provisions were eventually transformed into those of Act XXX of 1923.

The Baroda State have recently introduced a Civil Marriage Bill; while the Laws of other Indian States are understood to provide for the performance of such marriages. The advantages of the measure, if enacted, are obvious. The Bill would enable persons subject to polygamous marriage laws to contract monogamous marriages and removed the inequality in the matter of divorce. It would elevate the status of women. These benefits have already been assured to the Hindus, Buddhists, Sikhs and Jains by Act XXX of 1923, and there is no reason why the benefit that that Act confers upon the communities named should not be extended to other communities who might as regards succession be equally brought under the law enacted in the Indian Succession Act. A provision to this effect has not been inserted in the Bill, but it can be added at a later stage if public opinion favours it. The absence of a civil marriage law lends itself to perjury and

artificial conversions which it is the policy of the State to prevent. It was so observed by Sir Henry Maine who advocated the establishment of a non-sectarian marriage law in order to prevent the abuse resulting from such conversions (Proceedings Imperial Council, dated 27th November, 1868, pp. 498, 499).

To sum up then the advantages of such marriages are as follows:—

1. Such marriages are recognised and provided for by the laws of all civilised countries, and it is possible to contract such marriages outside the territorial limits of India. The disability is, therefore, purely territorial, and patriotic Indians are naturally anxious to remove all such disabilities from their way.

2. The Bill is monogamous in its policy and would result in introducing monogamy where polygamous marriages alone are at present possible.

3. It would prevent artificial conversions resulting from the exigency of marriages.

4. It would give a wider field for selection and thus ensure a happier domestic life.

5. It would introduce a greater sincerity in marriages by dispensing with the subscription of a declaration which many desiring to marry under the existing Act have to subscribe to not without considerable mental reserve.

6. It would tend to the unification of the Indian races without at the same time interfering with their personal religion.

7. It would give the wife a more assured position and entitle her to exercise her right of divorce which may not be possible if married under her personal law.

8. And being merely optional it trenches upon no one's rights, but merely prescribes a form to those who, while desiring to escape from the thraldom of their religious ritual, do not wish to renounce it.

It is believed that, with the growing strength of the national sentiment, such a Bill has become a public desideratum, and it has therefore been decided to re-introduce it in the Central Legislature.

Personal Assistant to the Chief Engineer to the Government of Bengal.

CALCUTTA, *the 13th November 1929.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1929.

I. **Character of the season.**—During the month under review, the rainfall was much above the normal almost throughout the Presidency, excepting only in Jessore, Khulna, Faridpur, Bakarganj and in the districts of the Chittagong Division, where it was below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of autumn crops was over. Field operations for early spring crops commenced in places, but their progress was hampered to some extent by excessive rainfall in parts of North and West Bengal.

III. **State of standing crops.**—Good rainfall of the month materially improved the outturn of transplanted paddy and the outlook of other standing crops was reported to be generally promising.

IV. **Prospects and probable outturn.**—The prospects of winter paddy which were so long considered to be not very hopeful turned better as a result of good showers during the month. A good outturn is expected for the province as a whole. The outturn of sugarcane is expected to be about 82 per cent. of the normal.

V. **Damage to standing crops.**—No damage to standing crops is reported from any part of the province, except in places of Bankura and Bogra, where the crops were somewhat affected by excessive rain.

VI. **Condition of agricultural stock.**—Condition of live-stock was generally fair. Stray cases of cattle-disease were, however, reported from six districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in two districts, fell in twelve and remained stationary in the rest of the province. The price ranged from 5 seers per rupee at the 24-Parganas to 9 seers per rupee at the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of agricultural population continued to be generally fair.

Rai Bejoy Gopal Chatterjee Bahadur, Retired District Judge, Commissioner.

REPORT.

With reference to notification No. 16416A., of the Government of Bengal, dated the 31st August 1929, we have the honour to submit the following report in respect of the petition made by Babu Gangadhar Haldar with regard to the election of Mr. P. Banerji by the 24-Parganas Rural South (Non-Muhammadan) constituency as a member of the Bengal Legislative Council.

On 18th September 1929 Mr. Garlick, the then President of the Commission, called upon the petitioner to deposit further security of Rs. 2,000 and on 26th September 1929 on a prayer by the petitioner for time to give security November 4th was fixed as the date for doing so, and it was further ordered that the additional security must be given before issues were framed. It should be mentioned that before making this order the President enquired of the petitioner how long he expected the enquiry to last and the petitioner's advocate replied in a letter, dated 7th September 1929, estimating that it would take about ten days.

On November 4th the Commission sat for the first time and the petitioner raised objections to this order. Although in our opinion there were ample reasons on the record for the President's order we postponed consideration of this until the issues were framed, when we should be in a better position to estimate the probable duration of the enquiry.

On November 7th the issues were framed and the petitioner was directed to execute a bond for Rs. 2,000 with sureties as security for further costs in modification of Mr. Garlick's order to deposit the amount. We pointed out in making this order that from the issues framed it was evident that there would be a protracted hearing.

November 14th was the date fixed for executing this bond and for examination of witnesses.

On November 14th the petitioner prayed for stay of the proceedings on the ground that he had applied to His Excellency the Governor for changing the personnel of the Commission. We rejected this petition and called upon the petitioner to execute a bond as ordered. On this he put in a further petition and stating that he could not submit to the humiliation of furnishing security and was unwilling to do so, and prayed that the order might be revoked. This prayer also we rejected.

The petitioner having refused to comply with our order, in our humble opinion the petition ought to be dismissed, as it was in the case of Narayan Laxman *versus* Atmaram Mahadeo Atavne, Vol. 111, Madras Election Petitions, page 173. We therefore recommend that the petition be dismissed with costs, and that the petitioner should pay to respondent No. 1 Rs. 200 towards the costs of this petition.

ADDENDA AND CORRIGENDA.

No. 5271F.—23rd November 1929.—The following corrections have been authorised and are published for information:—

The Bengal Financial Rules, 1st Edition.

Pages 135-36—T.O. 16, S.R. 35, clause (1).—Substitute the following for this rule and all notes except Note I under the rule:—

10A. The following transactions of the Provincial Government will be taken to the nearest anna, six pies and over being treated as one whole anna and amounts less than six pies being omitted:—

(1) Payments to or recoveries from Government servants and pensioners, except as specified below:—

(*a*) In the case of emoluments fixed by statute, the payment may be to the next higher anna.

(*b*) In the case of pies occurring in life insurance premia under the Postal Life Insurance scheme, and in subscriptions to uncovenanted pension funds, such as the Bengal and Madras Service Family Pension Fund, the Bombay and the Bengal Uncovenanted Family Pension Funds, which are deducted from pay bills, the total sum for twelve months is bound to be an even sum of annas, and every subscriber should be asked to pay to the nearest anna eleven months in the year, the necessary adjustment being made in the last month; thus, a man who has to pay Rs. 3-5-7 per month may pay Rs. 3-6-0 per month for eleven months and Rs. 3-1-0 in the twelfth month. In the case of the General Provident Fund and the Indian Civil Service Pension Fund deductions will, however, be made in whole rupees.

(*c*) As regards recoveries of amounts under objection, when all amounts of bills are calculated in annas, there cannot be any pies in objection books, except in the case of recoveries of advances in instalments. These instalments need not be exactly equal and the recoveries should be so fixed as to be always in annas, the last instalment being adjusted as necessary; thus a motor car advance of Rs. 5,000 to be repaid in 36 instalments should be recovered as follows:—35 instalments of Rs. 138-14-0 and a last instalment of the balance Rs. 139-6-0.

(2) Accounts rendered by one Government or Department to another—

NOTE.—Pies need not be eliminated in exchange accounts between one Government or Department and another if it is not possible to remove them from the original transactions.

(3) Amounts converted into Indian currency from sterling. The same rule should be applied ordinarily to receipts on account of remittance transfer receipts, deposits, and to all receipts other than receipts of revenue which are fixed by or under any law.

Page 184—F. R. Appendix 3, rule 12, II, clause (g).—Substitute the following for the last sentence:—

"See the note under article 151, Account Code."

Page 68—Rule 218.—Under clause (*a*) of this rule *insert* the following as a note:—

NOTE.—As an exception to this rule, the details need not be reproduced in a subsequent bill if the details of all the items of that bill are contained in a single previous bill.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 26th September, 1929:—

L. A. BILL NO. 35 OF 1929.

A Bill to amend the Mussalman Wakf Validating Act, 1913.

WHEREAS doubts have arisen regarding the applicability of the Mussalman Wakf Validating Act, 1913, to wakfs created before its enactment; VI of 1913.

AND whereas it is expedient to resolve such doubts;

It is hereby enacted as follows:—

Short title. **1.** This Act may be called the Mussalman Wakf Validating (Amendment) Act, 192 .

Amendment of section 1, Act VI of 1913. **2.** In sub-section (2) of section 1 of the Mussalman Wakf Validating Act, 1913, after the words "It extends to the whole of British India" the following words shall be added, namely: - VI of 1913.

"and shall apply to all wakfs whenever executed."

STATEMENT OF OBJECTS AND REASONS.

Muhammadan law permits a perpetual bequest in the form of a *Wakf-al-aulad*, that is a bequest for the benefit of the testator's descendants. As such, it contravenes the law against perpetuities as enacted in section 14 of the Transfer of Property Act, and section 114 of the Indian Succession Act. A doubt was cast on this doctrine by the Privy Council in several cases in which their Lordships held such bequests illegal as obnoxious to the rule against perpetuities (*Abdul Fata* v. *Rasamaya* 22 C. 619 P.C.: *Abdul Fagur* v. *Nizamuddin* 17 B. L. P. C.: *Mujib-u-nissa* v. *Abdul Rahim* 23 A. 233 P.C.: *Muhammad Munawar Ali* v. *Razia Bibi* 27 A. 320 P. C.). Mr. Jinnah introduced a Bill which became Act VI of 1913 restoring the validity of such *Wakfs*.

But in several cases since decided this Act is held to be inapplicable to wakfs created before its enactment (*Khajeh Soelhman* v. *Salimullah* 49 C. 820 P. C.: *Rahimunissa* v. *Shaik Manik Jan* 19 C. W. N. 76: *Mahomed Bukht* v. *Dewan Ajman Reja* 43 C. 158: *Amir Bibi* v. *Azizabibi* 39 B. 563).

As Act VI of 1913 was merely declaratory of the validity of such wakfs, it was understood that it would apply equally to all wakfs whether created before or since that enactment. But as the Courts have held otherwise, this Bill is framed to give that Act retrospective operation.

It is apprehended that the Mussalman Wakfs Validating Act (VI of 1913) was not intended to introduce a change in the old law being enacted, to restore the old rule. This Bill will, if passed, carry out its intention by resolving a doubt resulting from recent cases.

RESOLUTION ON THE ANNUAL REPORTS OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE FOR THE YEAR 1928-29.

GOVERNMENT OF BENGAL.

Department of Agriculture and Industries.

Veterinary.

CALCUTTA, THE 20TH NOVEMBER 1929.

RESOLUTION—No. 5539 VETY.

READ—

Annual Reports of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1928-29.

I. Civil Veterinary Department, Bengal.

Though the scheme for providing an additional Assistant Director was administratively approved in August 1928, it has not yet been found possible to give effect to it for financial reasons, with the result that the proposed redistribution of the several districts of the Presidency into three ranges, each under a separate Assistant Director, is still in abeyance. For the same reason effect has not yet been given to the approved scheme for providing nine Staff Veterinary Assistant Surgeons for controlling outbreaks of epidemic diseases although Government fully realise the difficulty of dealing effectively with such outbreaks in various parts of the province with only one Staff Veterinary Assistant Surgeon, particularly in view of the shortage of the veterinary staff employed by the local bodies. It is, however, gratifying to note that it has been found possible to give effect to the sanctioned scheme for the appointment of a propaganda officer of the rank of Inspector. His principal duty will be to carry on propaganda work with the help of a magic lantern, and to disseminate information regarding veterinary diseases, their prevention and treatment, etc. It is hoped that the officer will justify his appointment by bringing home to the minds of cultivators their responsibility in regard to the health of the cattle under their charge.

2. As regards the scheme for the appointment of a Research Officer submitted by the Veterinary Adviser, Government, while appreciating its merits, are of opinion that it must await conditions under which it can be discussed with some prospects of a successful issue. Moreover Government also consider it important that the scheme should be examined by the Provincial Committee on Agricultural Research which is now in process of formation in pursuance of the recommendation of the Royal Commission on Agriculture.

3. While Government have been doing all that is practicable in the matter of providing the supervising and other staff of the department which are exclusively maintained from public funds, it is regrettable to find that some local bodies have so far not yet shouldered their own share of the burden, the result being that the programme of providing two Veterinary Assistant Surgeons for each subdivision is far from being carried out.

4. The most noticeable event which has taken place since the close of the year is that Government have issued orders regarding the free supply of serum to local bodies with retrospective effect from 1st April 1927. This has relieved these bodies of a charge of Rs. 70,000 per annum, and it is hoped that they will now bear their legitimate share of the veterinary expenditure more readily than hitherto.

5. It is pleasing to note that the year under review has been generally a healthy one for the live-stock of the province. Rinderpest continues to be the most serious scourge, being responsible for 67 per cent. of the deaths reported from bovine diseases. A very important feature of the campaign of the year was a free demonstration of the serum simultaneous method of inoculation against rinderpest organised at char Patharghata in the district of Bakarganj. It is hoped that the demonstration will prove of real value. It may be expected that the gradual extension of the serum simultaneous method of inoculation will tend towards the reduction of the death rate on account of rinderpest. In this connection Government note with satisfaction that the death rate among inoculated animals was negligible during the year.

6. The record of the working of the veterinary hospitals and dispensaries is not very satisfactory, the number of such institutions having been reduced from 45 to 44. The most striking feature appears to be the abrupt fall from 21,290 to 9,353 in the number of cases not brought to hospital but supplied with medicine. The reasons as stated in the report do not seem to explain adequately this abnormal decrease and the matter requires further investigation. Government join with the Director in thanking the Rani Brindarani Chaudhurani, of Dimla, for her generous contribution towards the construction of the veterinary dispensary at that station and note with pleasure that the Maharaja of Susang in Mymensingh also contemplates opening a veterinary dispensary on his own estate in collaboration with the district board. It is hoped that other landlords of the province will emulate these efforts.

7. It is satisfactory to notice that cattle fairs and shows continued to be attended by departmental officers who took these opportunities of delivering lectures on veterinary matters and of explaining to the people the modern methods of treatment of diseases and of management of cattle. This is essentially necessary for the development of veterinary knowledge among cultivators who are proverbially conservative.

8. Government note with pleasure the names of officers of the department who did good work during the year and desire also to acknowledge the services of Messrs. Kerr and Davis for their efficient administration of the department.

II. The Bengal Veterinary College.

9. Government are gratified to note that the demand for admission into the college shows an increase. With the opening of a Veterinary College at Patna students will, of course, cease to come from Bihar and Orissa, but in view of the increase in the number of students from Bengal seeking admission into the college, it does not seem probable that the position will be affected very seriously. At the same time, Government would again take this opportunity of urging that local bodies be prepared to bear their legitimate share of veterinary expenditure specially as they are now being supplied with serum free of charge.

It is most disappointing to note that the district board stipends in Bengal compare very unfavourably with those of other provinces. The attention of the boards is drawn to the matter.

10. Government note with satisfaction that the Raymond Research Laboratory has maintained its record of continued good work during the year under review.

11. The recommendations of the Royal Commission on Agriculture relating to the Veterinary Department are being considered by Government. Such of the accepted recommendations as may involve additional expenditure must, unhappily, await better financial conditions, while effect will be given to others as early as may be practicable.

12. Government desire to acknowledge the care and attention which Messrs. MacGregor and Davis devoted to the administration of the college and would also record their appreciation of the manner in which the committee of management have conducted their work.

By order of the Government of Bengal,

G. P. Hogg,
Secy. to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL ADMINISTRATION REPORT OF THE DEPARTMENT OF INDUSTRIES FOR THE YEAR 1928-29.

GOVERNMENT OF BENGAL.

Department of Agriculture and Industries.

Industries.

CALCUTTA, THE 9TH DECEMBER 1929.

RESOLUTION—No. 5905Ind.

Read—

Annual Administration report of the Department of Industries for the year 1928-29.

The most important administrative change of consequence that took place during the year under review was the transfer of control of all district and peripatetic weaving schools and of the weaving demonstration parties from the Principal, Serampore Weaving Institute, to the Directorate at Calcutta. The growing importance of the Central Weaving Institute at Serampore emphatically pointed to the necessity of relieving its head of all outside duties, while, at the same time, it was considered essentially necessary that the headquarters staff of the department should be in direct touch with the organisation and inspection of mufassal weaving schools and demonstration parties. The abovementioned arrangement necessitated the transfer of the Assistant Principal of the Serampore Weaving Institute to the staff of the Director under the altered designation of Weaving Expert and Assistant Inspector of Weaving Schools. Government have no doubt that this arrangement will result in the more effective control and supervision of the Central Institute as well as of the outlying weaving schools and demonstration parties.

The only other important change was the retirement of Mr. E. Hoogewerf, Principal, Serampore Weaving Institute, who was superannuated on 3rd April 1929. In view of the importance of the charge the selection of a successor to Mr. Hoogewerf has not been an easy matter, and Government have sought for the assistance of the Provincial Selection Board in this connection.

Government have perused with interest the Director's "general observations" on development of industries, and note with satisfaction the encouraging feature that new concerns already provide employment for a number of *ex*-students of the Serampore Weaving Institute and also open an avenue for employment for the successful students of the Berhampore Silk Weaving Institute.

In the opinion of Government the activities of the local industries department should, under the existing circumstances, be directed mainly towards development of cottage and small scale industries. The Royal Agricultural Commission has brought into prominence the well-known fact that while agriculture is the main industry of this country, that alone cannot keep the cultivators occupied throughout the year, and that with a view to ameliorating their economic condition some occupation should be found for their spare time. As suggested by the Commission (and as also emphasised by the Industrial Commission more than a decade ago) manufacture on cottage industry lines is the most useful spare-time occupation for this class of people. The home industries of this country have a tradition of their own, and as observed by the Indian Industrial Commission, 1916-18, they have so far generally stood successfully against the intense competition of factory products, foreign or Indian. But in order to make the position of these domestic industries secure against factory competition the main thing necessary is the substitution of primitive methods by modern processes. This is one of the lines on which the Government industries department can assist the development of home industries. Another direction in which the activities of the department may be usefully directed for the amelioration of the condition of village artisans is to educate them on modern lines so far as village manufacture is concerned. They are proverbially conservative and lacking in ambition. Unless and until it can be brought home to their minds by simple methods of teaching and more effectively by occular demonstration that the adoption of modern methods of manufacture will save their labour and time they can hardly be expected to give up their primitive methods to which they have been wedded for generations past. Another way of assisting the

village artisans is to extricate them from debt. The only possible way in which this can be done is by the formation of co-operative credit societies. The last but not the least important form of assistance that can be rendered to the development of cottage industries is to organise a market for them. Here again the formation of co-operative sale societies is the most effective solution.

Turning now to the detailed activities of the several sections of the department Government would record the following observations :—

Industrial Chemical Department.—It is gratifying to notice that in this section not only is research being systematically carried on in the laboratory, but arrangement has also been made for the demonstration of the successful results of research and experiment conducted by the Industrial Chemist. It is also encouraging to note that the training provided at the research laboratory for apprentices in soap-making has been attracting a fair number of students. It is also a good sign that reference is frequently made to this section for technical assistance and advice, and that it is readily given wherever possible. The departmental bulletins are also useful publications.

Engineering Section.—The record of the activities of the engineering section of the department is interesting reading. The Industrial Engineer has investigated the condition of a number of industries and has written various reports which indicate much industry and keenness. Among them the report on the match industry and his investigation into the condition of the hosiery industry may be specifically mentioned. Such investigations are essential preliminaries to all industrial development. The report on the survey of cottage industries conducted years ago is being brought uptodate from time to time, but it does not supply the detailed information necessary for the purpose of ascertaining local needs and of deciding on what lines development is possible. At the instance of the Director Government have, therefore, administratively approved the creation of two temporary posts of Industrial Surveyors to assist the Industrial Engineer in the investigation of indigenous industries and in the collection of local commercial and industrial intelligence. The appointment of these officers is now awaiting provision of funds. It is highly creditable that working so far single-handed, the Industrial Engineer besides collecting information has designed and produced a number of labour-saving machines, which have already proved successful. Of these the conch-shell cutting machine, the paddy-husking machine and the umbrella-bending and marking machines may be mentioned. Government note that pending proper equipment of his part of the research laboratory, the Industrial Engineer is having his experimental machines manufactured by private firms. When the condition of provincial revenues makes it possible to equip properly the engineering section of the laboratory the Industrial Engineer will, it is hoped, have much greater facilities for his work.

The results of experiments and demonstrations carried out in this section as stated in the report are very encouraging—some of them, *e.g.*, that in connection with the drying of boiled paddy will remove a long-felt want. The direct results of these demonstrations are illustrated by the fact that in the course of seven months over 400 paddy-husking machines devised by the Industrial Engineer were sold, while at Chittagong an organised factory for the production, bending and marking of umbrella handles has been established.

Some of the activities of this section deserve special notice as they should help to solve the vexed problem of middle class unemployment. Of these may be particularly mentioned the umbrella-making class opened at the research laboratory.

In this section also assistance has been readily given to industrialists not only in the shape of technical advice but in having their names enlisted as approved contractors.

The Bengal Tanning Institute.—It is pleasing to note that during the year under review the Bengal Tanning Institute has maintained its record of good work in all the main branches of its activities, viz., research, instruction and demonstration. It is gratifying that the investigations into the qualities of available raw hides has disclosed the fact that Bengal hides produce very fine grained leather, so much so that the grains of most of the cow hides are as fine as those of European calf skins. The most striking result of the activities of the institute is to be found in the

fact that the consumption of the Bengal hides in the chrome tanning industry is gradually on the increase, not only in this province but also in other parts of India. Government entirely agree with the Director that half-tanning of leather, opening large possibilities of export trade, should be developed, and that the absence of a particular tanning material (*Cassia Auriculata*), which can be imported from other provinces, should not prove a bar to such development. It is encouraging to note that the initiative given by the institute in this matter is showing tangible results, a number of tanneries in Calcutta now making and exporting half-tanned leather. Another important feature of the activities of this section is the training of apprentices, both on the practical and theoretical sides. It looks hopeful that the chemical training imparted in the institute has been so much appreciated by the trade and that some of the past students of the institute have been successful in securing good positions in commercial laboratories. The demonstration and propaganda work undertaken by this section are also producing their desired effects.

Technical including weaving education.—Government note with gratification that technical education in all its branches has been receiving the special attention of the department. As a matter of fact out of a provision of Rs. 8,81,909 on the expenditure side of the Industries Department budget a sum of Rs. 5,84,000 is devoted to the cause of technical education. The three main lines of activities of the department in regard to technical and industrial education are (1) training abroad, (2) maintenance of the Government technical institutions and (3) giving grants-in-aid to non-Government institutions. On all these lines the activities of the department have been marked. In the matter of training abroad the programme of sending out two scholars each year has been kept up, and in addition extensions of term, where necessary, have been granted to scholars already sent. A fresh programme of subjects in which technical scholarships will be given has also been prepared in consultation with the Advisory Board of Industries. Secondly, in pursuance of the recommendation of the Bengal Retrenchment Committee, reorganisation schemes in regard to three out of four Government technical schools are now completed and administratively approved. Thirdly, the allotment under grants-in-aid is now Rs. 90,000 more than it was three years ago.

In the matter of weaving instruction the progress made by the department is striking. As many as twenty-six peripatetic weaving schools are now at work, while twelve more have been administratively approved. Government are glad to note that the weaving school at Dacca, an important weaving centre, has been opened and that the Berhampore silk weaving school is now in full working order, marked progress in the use and adjustment of the silk twisting machinery having been made largely through the enterprise of Mr. A. N. Sen, Inspector of Technical and Industrial Institutions. The Central Institute at Serampore has kept up its record of good work, though the scheme for upper classes for women students has unfortunately failed. Government trust that when the power loom weaving section is completed weaving education in the province will receive a fresh impetus.

It is also a matter of satisfaction that the Calcutta Technical School within the short period of its existence has been successful in inspiring confidence among the various employing firms so that some of them are now insisting on candidates for apprenticeship in their respective firms passing the entrance examination of the school. Government take this opportunity of thanking these firms for their co-operation in the matter.

Before concluding Government would record their appreciation of the efficient working of the department under Mr. Weston. The thanks of Government are also due to the members of the Advisory Board of Industries and other boards and committees associated with the department for the assistance rendered by them.

RESOLUTION.—No. 3015Medl.

CALCUTTA, THE 13TH DECEMBER 1929.

Under rule 28 of the Rules under the Medical Act, 1914, Government have taken into consideration the objection made by Babu Amulyadhan Mukerji against the election for the constituency formed by section 4 (*h*) of the Bengal Medical Act, 1914, as amended by Bengal Act III of 1928, and in the exercise of their powers under the said rule Government declare the election to the Council for this constituency to be void through sufficient cause. It appears that certain of the voting papers have been marked with more than four crosses, one of which was deleted, with the result that doubts arise as to the intention of the voter, and that these papers occurred in sufficient numbers to affect the result in the case of one candidate.

2. As the rules do not provide for the election of one member only out of a plural constituency, Government have no alternative but to declare the whole election for the constituency constituted by section 4 (*h*) of the Act to be void and to call on the electorate of this constituency to make a fresh election before 28th February 1930. Proceedings will begin from the procedure for nomination laid down from rule 13 of the rules notified in notification No. 1690Medl., dated 5th July 1929, and fresh nominations should be called for at once.

By order of the Governor in Council,

C. W. GURNER,

IRRIGATION DEPARTMENT.

NOTIFICATIONS.

No. 44-I.—9th December 1929.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to make and fix, with effect from the 3rd January 1930, the following rules and schedules of rates of toll for the khal known as the first side-cut along the Schillarganj Char Duani Road, joining Nali Done in the south and Shapleza khal in the north, in the Pirojpur subdivision of the Bakarganj district:—

Rules and Schedule of Rates of Tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessel of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds ..	Four annas.
(2) On all vessels empty or laden, for 12½ maunds or less ...	One-half anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth ...	Two annas each raft.

Tolls will be levied at Nali and Shapleza.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 23rd September, 1929:—

C. OF S. BILL NO. 9 OF 1929.

A Bill to prohibit the export of Cattle.

WHEREAS it is expedient to remove preventible causes for the shortage of agricultural cattle and reduction of the milk supply in British India; and whereas the overseas trade in cattle has appreciably contributed to the said shortage of agricultural cattle and the said reduction of the milk supply; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Prohibition of Export of Cattle Act, 192 .

(*2*) It shall extend to the whole of British India.

(*3*) It shall come into force on the 19 .

Definition.

2. "Cattle" shall mean and include cows, bulls, bullocks and buffaloes as well as their calves.

Offence.

3. Whoever exports or carries coastwise cattle from British India or carries such cattle by road, rail, water or air within British India for the purpose of such export or carrying coastwise and whoever abets the commission of any of the said acts shall be guilty of an offence under this Act and shall be punished with imprisonment which may extend to six months or with fine or with both.

Forfeiture.

4. On conviction for an offence under this Act the cattle in respect of which the offence is committed shall be forfeited.

Offence cognisable and bailable.

5. All offences under this Act shall be cognisable and bailable and shall be triable in the manner prescribed for warrant cases by a Magistrate of the first class.

STATEMENT OF OBJECTS AND REASONS.

India is mainly an agricultural country. Cattle are essential to the agriculturist and milk to the great bulk of the population. A large number of cattle has of late been exported every year for the purposes of the trade. This has naturally appreciably raised the prices of cattle and milk. The scarcity of milk is a serious hardship upon the people in general, but its evil results have been most felt in the case of infants. The great rise in infant mortality during recent years has been distressing. The object of this Bill is to combat these growing evils to some extent by penalising export trade in cattle.

Third forecast of the Cotton Crops of Bengal, 1929-30.

Dacca, the 9th December 1929.

(NOTE.—On an average of the five years ending 1927-28, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The early crop is chiefly grown in the Chittagong Hill Tracts and the Tripura State and to a small extent in other districts. The late crop is chiefly grown in Bankura and Midnapore.

Character of the season.—After the publication of the second forecast, the harvesting operations for the early crop were generally carried on under favourable conditions and a satisfactory crop has been reaped for the Province.

The outlook of the late variety, so far, is fair.

Area sown.—The total area sown with early cotton is returned at 76,307 acres and that with late at 1,203 acres, against 77,381 and 753 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 20,290 bales and the late crop at 313 bales, against 20,450 and 117 bales, respectively, in the corresponding forecast of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Bhadoi Crops of Bengal, 1929-30.

(NOTE.—On an average of the five years ending 1927 28, the area under *autumn* rice in Bengal has represented some 6·0 per cent. of the total area under rice in British India.)

Character of the Season.—As reported in the preliminary forecast, insufficient rainfall up till the middle of April hampered the preparatory tillage and sowings, while good rainfall later on favoured the growth and development of the crops generally, except in parts of some East Bengal districts where untimely heavy rain and early rise of rivers caused damage to lowland crops. Subsequently the conditions were generally favourable and the season, on the whole, may be regarded as a fair one for the crops this year.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 5,815,100 acres as against 6,444,700 acres last year. Of this, the area under *autumn* rice is estimated at 5,031,100 acres as against 5,649,000 acres last year. The decrease in area is attributed to drought at sowing time.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops together for the Presidency works out at 75 per cent. of the normal this year as against 82 per cent. last year.

The *autumn* rice is also estimated to yield an outturn of 75 per cent. of the normal for the province this year as against the estimate of 95 per cent. last year. In my opinion the outturn of *autumn* rice is an under-estimate, and the crop will not fall short of 80 per cent. of the normal this year.

On the basis of a normal yield of 10¾ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) is estimated at 1,589,400 tons this year as against 2,119,200 tons last year, or a decrease of about 25 per cent.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1929-30.

(Note.— On an average of the five years ending 1927-28, the area under winter rice in Bengal has represented some 17·7 per cent. of the total area under rice in British India.)

Character of the Season.—As reported in the first forecast the weather was generally unfavourable in the early part of the season for the field operations of deep-water paddy in East and parts of North Bengal. The rainfall in May though defective was helpful to the germination of young plants. The rainfall in early June, being heavy, damaged the low land crop in places of East Bengal but helped the sowing of winter paddy in seed-beds elsewhere. This was followed by a weak monsoon resulting in less area being transplanted this year. The growth of the transplanted crop was also retarded in consequence especially in the high land tracts. Good rainfall in October, however, materially increased the outturn of the crop which suffered so long from insufficient rain. On the whole a good crop may be expected for the Province.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 14,643,400 acres as compared with 15,323,900 and 15,357,400 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended it will be seen that Bankura reports more than a normal crop. Six districts report a normal crop of 100 per cent.; fourteen districts a crop varying from 82 to 95 per cent. and the rest from 67 to 75 per cent. of the normal. According to the above estimates, the provincial outturn works up to 90 per cent. as against 105 per cent. of the normal, both in the corresponding and final forecasts of last year.

Accepting 90 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 6,051,600 tons this year as against 7,388,300 and 7,404,500 tons, respectively, in the corresponding and final forecasts of last year.

RESOLUTION ON THE SIXTY-SEVENTH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1928-29.

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

CALCUTTA, THE 10TH DECEMBER 1929.

RESOLUTION—No. 16125 CIN.

Read—

The sixty-seventh annual report of the Government cinchona plantations and factory in Bengal for the year 1928-29.

Read also—

The reports of the previous three years.

Mr. C. C. Calder held charge of the office of Superintendent throughout the year.

2. There are two cinchona plantations maintained by Government in this Presidency, viz., one at Mungpoo and the other at Munsong, both in the district of Darjeeling. There is also a Government factory at Mungpoo, where quinine and its by-products are manufactured from the bark of trees grown on those plantations and from Java and Burma bark obtained from the Government of India. The Revenue Department is concerned with the production of quinine, while its distribution is a matter which primarily concerns the Public Health Department.

3. The survey of the plantations commenced through the agency of the Survey of India, referred to in the resolution on the report for the year 1927-28, was completed during the year under review.

4. The Government of Bengal had under consideration during the year a scheme for the introduction in the Bengal Cinchona Department of a commercial system of accounts as proposed in a report submitted by an officer of the department of the Auditor-General. The scheme is being examined with a view to introducing it experimentally from 1930-31.

5. Extensions were carried out during the year comprising 68 acres in the Mungpoo plantation only. During the year a hail storm did very considerable damage to some cinchona blocks in the Rungbee division on this plantation. A devastating disease which appeared in the nurseries of the Munsong plantation last year, is still working its course inspite of the most elaborate precautions taken to disinfect nursery soils and sites. Experiments are being continued but, if these fail, the young plants required for extensions will have to be brought from Mungpoo by lorry. It is for this reason that no extension was carried out in this plantation during the year.

6. The quantity of Bengal bark harvested during the year under review was 1,041,827 lbs. against 917,259 lbs. in the previous year.

7. The quantity of dried bark used in the factory during the year was 1,058,349 lbs., of which 918,072 lbs. was Bengal bark and the rest Java and Burma bark belonging to the Government of India.

Altogether 41,368·5 lbs of quinine sulphate was manufactured during the year at a cost of Rs. 2·721 per lb.; of this 5,417·5 lbs. belongs to the Government of India. The total quantity of cinchona febrifuge manufactured during the year was 20,501 lbs. of which 3,130 lbs. represents the share of the Government of India. The expenditure incurred on the febrifuge was Rs. 1·820 per lb. Besides 1,126 lbs. of other quinine salts, 1·8 lbs. of quinidine sulphate and 1·9 lbs. of cinchonidine salts were manufactured.

The second purification plant was installed during the year and the result is that the quinine packed since the installation is as white as any brand on the market.

8. No satisfactory solution has yet been found of the difficulty of utilising the large accumulated stock of provincial quinine. Of the several provinces, Bengal is the largest consumer of factory products

having used 9,096 lbs. of quinine salts and 10,116 lbs. of cinchona febrifuge, of which 4,607 lbs. and 4,521 lbs., respectively, were used in hospitals and dispensaries and 913 lbs. and 1,493 lbs., respectively, were used by district boards, local boards, union boards and municipalities. These figures represent only a fraction of the actual requirements of the population for it is well known that, while stocks are accumulating in depôts, there are large numbers of unrelieved sufferers from malaria. The difficulty unfortunately lies in the fact that any attempt to reduce the price of quinine in India below the world level would probably result in wholesale exportation which would deplete the stocks in India to the advantage of exporters without corresponding benefit to the people of India.

A possible solution would be to prohibit export, but this would put a premium on smuggling and is a problem which is connected with the distribution of quinine rather than its production.

9. The total expenditure of the department incurred during the year including pensionary charges was Rs. 4,16,925-1-3; the total receipts, exclusive of Rs. 7,806-2-9 from land rent, grazing fees, fines and compensation for damage paid into the treasury not to the credit of the cinchona department, were Rs. 6,46,746-5-6. The expenditure was lower by Rs. 31,319-8-6 and the receipts were higher by Rs. 1,08,543-15-9 than in the preceding year. The profit on the year's working amounted to Rs. 3,11,192.

10. The figures contained in the report indicate that very satisfactory progress has been made in the production of quinine during the year under review. The Governor in Council is pleased to record his appreciation of the work Mr. Calder has done for the department during the year. Recognition of good work accomplished is also due to Mr. Shaw and the other officers of the department. Special thanks are due to Mr. Thomas, Manager of Munsong, for the unremitting and well-directed efforts he has made to cope with adverse conditions on his plantation.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

By order of the Governor in Council,

Secy. to the Govt. of Bengal.

Instructions regarding the submission of petitions to the local Government.

General explanations.

1. These instructions apply, so far as may be, to all memorials, letters and applications, etc., addressed to the local Government.

2. These instructions do not apply to cases covered by the rules regulating appeals issued by the Secretary of State under section 96B (2) of the Government of India Act or by the local Government in exercise of the powers delegated to it under those rules.

Section I—As to the submission of petitions to the local Government by private persons or public bodies.

3. Every petition should be accompanied by a letter addressed to the officer concerned requesting its transmission to the local Government and when any order is appealed against, by a copy of that order, as well as of any orders passed in the case by subordinate authorities.

4. Communications on matters connected with bills before the local Legislature may be in the form of a petition to the local Government and must be forwarded to the Secretary to Government in the administrative department concerned.

Note (1).—The term "civil employ" includes employment by a local authority.

Note (2).—For the purposes of this section a petitioner is considered to be an "officer in civil employ," if he has been previously in civil employ and if his petition relates to any matter connected with his position while in such employ or the circumstances in which he left it.

6. Every petition from an officer in civil employ should be submitted through the head of the office or department to which the petitioner belongs or belonged, and should be forwarded by him through the usual official channel.

7. No officer in civil employ may submit a petition in respect of any matter connected with his official position unless he has some personal interest in the matter.

(*3*) When a petition is a mere application for relief, pecuniary or otherwise, which is presented by a person manifestly possessing no claim or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.

(*4*) When a petition is an application for employment from a person not in the service of Government or is a request for exemption from the provisions of any law or rule prescribing the qualifications to be possessed by persons in the service of Government, or by persons engaging in any profession or employment.

(*5*) When a petition is an appeal from a judicial decision with which the executive has no legal power of interference.

Note.—In the following cases, namely:—

(*a*) When a petition is an appeal from a judicial decision in a case in which the Government has reserved any discretion of interference, or

(*b*) When a petition is an appeal from a judicial decision in a suit to which the Government was a party, or

(*10*) When a petition relates to a subject on which a Commissioner, District Officer, or head of a department is competent to pass orders and no previous application for redress has been made to him.

(*11*) When the petition refers to matters in which the petitioner has not a direct personal interest, unless it is a petition of the kind described in the note to clause (*5*).

(*12*) When the petition is a representation against an order against which under the appeal rules published by the Secretary of State in Council under section 96B (*2*) of the Government of India Act, or by the local Government in exercise of the powers delegated to it under those rules, no appeal lies.

(*13*) If a petition is withheld, the petitioner should be informed of the fact, and the reason for it.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Spring Oilseed Crops of Bengal, 1929-30.

(NOTE.—On an average of the five years ending 1927-28 the area under Linseed in Bengal has represented some 3·2 per cent. and that under rape and mustard 11·7 per cent. of the total area under these crops in British India).

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 854,600 acres this year as against 877,400 and 884,300 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September, though defective, was sufficient for the preparatory tillage. In October heavy rain delayed sowings in the greater part of North Bengal and in Hooghly and Mymensingh. Elsewhere the operations generally commenced in the normal time. Dry weather in November has been helpful to further sowings and has also enabled the crops to recover from the evil effects of wet weather in October. The present condition is reported to be fair on the whole.

Director of Agri., Bengal (offg.).

No. F. B. 1142, dated Calcutta, the 9th November 1929.

From—The Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to submit herewith the report of the Chief Officer of the Calcutta Fire Brigade for the financial year ending 31st March 1929.

The Chief Officer's report gives full details of the working of the Brigade.

No. F. B. 1141, dated Calcutta, the 6th November 1929.

From—Captain Bernard A. Westbrook, o.b.e., Chief Officer, Calcutta Fire Brigade,
To—The Secretary to the Government of Bengal, Local Self-Government Department.

[*Through* L. H. Colson, Esq., *Commissioner of Police, Calcutta (offg.)*].

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1929.

2. The year under review has been a normal one, and the number of fires which can be classed as serious is much below the average.

3. In the report for the previous year special mention was made of a fire involving the loss of 19 lives at Brojo Kumar Sett Lane. This loss of life was due principally to the unsuitability of the premises as a dwelling and to various breaches of the building regulations. In this connection the City Architect remarked that effective control over this type of building is not feasible with the staff available in his department.

I regret that no action appears to have been taken to deal with this menace and owing to the lack of supervision of building regulations in Calcutta exceptionally dangerous fire risks abound. As long as present conditions prevail there is grave danger of catastrophies of a similar nature occurring.

4. **Financial statement.**—The statement of receipts and expenditure and payments made by municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse (Act I of 1893) is given in Appendix I.

5. **Fires.**—The total number of calls for fires or supposed fires was 634, being an increase of 90 as compared with the previous ten years and a decrease of 27 as compared with the previous year.

6. The number of wilful false alarms is 82, being a slight decrease as compared with the figure of the previous year. Five wilful false alarms were received from private telephones through the Telephone Exchange, and in these instances the Bengal Telephone Company took suitable action. The number of false alarms due to electrical defects is 26, which is a slight increase over the figure of the previous year, and the number of false alarms due to lightning on telephone circuits has decreased by 8.

7. The calls are classified as follows:—

Fires	497
False alarms, wilful	82
False alarms with good intent	10
False alarms due to electrical defect	26
False alarms caused by lightning on fire alarm circuits	3
Calls for special service (house collapse)	11
False alarms from private telephones	5

8. The actual number of calls received during the year was 888 as compared with 978 during the previous year. These figures include instances where more than one call was received for the same fire, and are given so that the means by which fire calls were received can be classified. These calls were transmitted as follows:—

Three hundred and forty-six (389 in 1927-28) by street fire alarms; 488 (541 in 1927-28) from private telephones; 7 (6 during 1927-28) from Police and direct fire telephones; 24 (22 during 1927-28) by messengers giving information at Fire Brigade stations; 23 (20 during 1927-28) from Fire Brigade look-out men at various Fire Brigade stations.

9. It is satisfactory to note that in 161 cases the first information of fires was received by means of street fire alarms. On the other hand 82 malicious false alarms were received through this system and in very few cases were the offenders apprehended.

Fires occurred in 38 premises licensed under the Licensed Warehouse and Fire Brigade Act 1 of 1893, as compared with 43 in the previous year.

10. In 322 cases fires were extinguished by means of first-aid machines, chemical fire extinguishers, buckets of water by individual firemen or by the occupants before the arrival of the Fire Brigade; in 64 cases by 1 motor fire engine; in 4 cases by 1 motor fire engine and hydrants; in 2 cases by 1 motor fire engine and fire float; in 3 cases by 1 motor fire engine and mill hydrant; in 11 cases by 2 motor fire engines; in 3 cases by 2 motor fire engines and trailer pump; in 3 cases by 2 motor fire engines, Port Commissioners' hydrants and fire float; in 1 case by 2 motor fire engines, mill hydrants and sprinklers; in 1 case by 2 motor fire engines and fire float; in 7 cases by 3 motor fire engines; in 1 case by 3 motor fire engines and hydrant; in 1 case by 3 motor fire engines and fire float; in 1 case by 4 motor fire engines; in 2 cases by 4 motor fire engines and trailer pump; in 1 case by 4 motor fire engines, hydrants and sprinklers; in 1 case by 5 motor fire engines; in 1 case by 5 motor fire engines, trailer pump and fire float; in 40 cases by cutting out switches and fuses; in 19 cases by jets from hydrants; in 8 cases by sand, and in 1 case by ship's appliances.

11. **Fire loss.**—The total damage caused by fire and water during the year has been estimated at Rs. 6,12,797, being a reduction of Rs. 1,53,798 as compared with the previous year. The average damage per fire is Rs. 966 as compared with an average for the last 10 years of Rs. 1,600. The average fire loss per annum for the last 10 years is Rs. 7,88,710.

12. The fire loss per fire is classified as follows:—

336	fires under	Rs. 100.
89	fires from	Rs. 100 to Rs 1,000.
28	fires from	Rs. 1,000 to Rs 5,000
18	fires from	Rs. 5,000 to Rs. 20,000.
5	fires from	Rs. 20,000 to Rs. 1,00,000.
1	fire above	Rs. 1,00,000.

The following summaries are given in the Appendix:—

Districts in which fires or supposed fires occurred	..	II
Damage caused by fire, etc., in various districts	..	III
Short reports of fire of Rs. 20,000 damage and over	..	IV
Number of "turns-out" from each Fire Station.	..	V

13. **Appliances.**—One new motor fire engine of 500-700 gallons capacity fitted with first-aid tank and reel, and a 50 feet telescopic fire escape was placed in commission during the year.

The following is a list of the principal appliances now in commission by the Calcutta Fire Brigade:—

Seventeen motor fire engines as follows:—

Two motor pumps 600-800 gallons per minute capacity, fitted with scaling ladders, etc. (motor pumps Nos. 2 and 18).

Three motor pumps 500-700 gallons per minute capacity, fitted with 55 feet telescopic ladders, etc. (motor pumps Nos. 1, 15 and 19).

Two motor pumps 450-550 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, scaling ladders, etc. (motor pumps Nos. 9 and 10).

Three motor pumps 450 gallons per minute capacity, fitted with scaling ladders, etc. (motor pumps Nos. 8, 11 and 14).

Three motor pumps 400-500 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, etc. (motor pumps Nos. 5, 6 and 7).

Three motor pumps 250 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinder and reel, etc. (specially designed for use in narrow streets and congested areas) (motor pumps Nos. 3, 12 and 16).

One motor trailer pump 250 gallons per minute capacity, (specially designed for use in positions that cannot be reached by the ordinary type of motor fire engines).

One mechanically-operated 85 feet motor turntable ladder, 1 motor lorry fitted as an emergency tender, 2 motor cars, one 60 feet turntable ladder (converted for motor traction), 24 hook ladders, 60 scaling ladders, 11 smoke helmets and breathing apparatus 54,700 feet of 2½ inch unlined canvas hose, etc.

At the Fire Brigade workshops an emergency tender was converted into a motor fire engine by being fitted with a 250-gallon capacity pump, first-aid tank and reel and 40 feet extension ladder.

Motor pump, No. 4 (350-450 gallons per minute capacity) and the 2 steam fire engines were condemned as being unfit for future service.

The appliances are distributed as follows :—

Headquarters.—Six motor fire engines (Nos. 2, 9, 14, 15, 16 and 19); 1 motor trailer pump; 1 motor emergency tender; 1 motor lorry; 2 motor cars; 14 hook ladders; 25 scaling ladders; 7 smoke helmets and 25,400 feet of 2½ inch canvas hose.

Central Avenue.—Four motor fire engines (Nos. 1, 3, 10 and 18); one 85 feet mechanically operated motor turntable ladder; 7 hook ladders; 12 scaling ladders; 4 smoke helmets; and 11,150 feet of canvas hose.

Cossipore.—Two motor fire engines (Nos. 5 and 7); 2 hook ladders and 10 scaling ladders; and 7,125 feet of canvas hose; one 60 feet turntable ladder.

Howrah.—Two motor fire engines (Nos. 6 and 11); 1 hook ladder; 9 scaling ladders; and 6,375 feet of canvas hose.

Garden Reach.—One motor fire engine (motor pump No. 8); 4 scaling ladders and 3,200 feet of canvas hose.

Sibpur.—One motor fire engine (No. 12); 1 telescopic ladder and 1,450 feet of canvas hose

It is estimated that the motor appliances travelled 10,636 miles during the year to and from calls.

14. **Fire Stations.**—Appendix V gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

Fire Brigade headquarters is still located in rented premises in Corporation Place. It is imperative that new headquarters should be provided at an early date as the present premises are not suitable and have not the accommodation required for either the staff or the appliances.

In this connection a reserve building fund is being created by placing a sum of money annually to this fund, and at present Rs. 1,20,000 is invested in 5 per cent. Government Bonds.

The fire risks in the Nimtolla and Burra Bazar areas continue to increase, and the congestion of traffic in that part of the city frequently delays fire engines *en route* to fires. Plans and estimates for a new fire station at Darmahatta Street have been prepared, for which provision has been made in the budget estimates, and it is anticipated that this fire station will be constructed at an early date.

15. Owing to the increase of fire risks in the Howrah and Sibpur areas the fire station at Sibpur has been equipped with a motor fire engine. This station was originally built for a hand fire engine. The necessary alterations were carried out during the year under review.

Negotiations are also in progress for the erection of fire and ambulance stations at Kalighat and Palmer's Bazar areas. Provision for the Kalighat station has been made in the budget estimate of 1929-30.

16. **Staff.**—The strength of the Brigade during the year was 225 as detailed below :—

One Chief Officer, 1 Second Officer, 1 Chief Engineer, 5 Station Officers, 8 Engineers, 7 European firemen, 1 Warehouse Inspector, 3 clerks, 1 store-keeper, 3 telephone operators, 2 carpenters, 2 lathe mistries, 1 fitter, 1 blacksmith, 1 tinsmith, 1 head-tindal, 15 tindals, 155 khallasis, 2 bhistis, 4 mehtars, 3 peons, 1 moochi and 6 Indian drivers.

The conduct and discipline of this force throughout the year has been excellent.

17. **Fatalities and accidents.**—Appendix VI gives short reports of fires involving loss of life or serious accidents.

During the year under review the number of lives lost was 13 as compared with 31 during the previous year. Twenty-eight persons were injured at fires as compared with 17 during the previous year.

First-aid was rendered by the Fire Brigade, where necessary, and the injured persons conveyed to hospitals by ambulances.

18. **Water-supply.**—The electrical pumping arrangements at Mullick Ghat and Watgunge Pumping Stations continue to be satisfactory and there has been no serious shortage of water in the area covered by mains of sufficient diameter from these stations. However, in some districts in Calcutta the mains are of inadequate diameter and attention will have to be paid to this question in the near future. This particularly applies to growing localities where the original small mains have not been replaced with mains of larger diameter.

19. There have, however, been occasions when the machinery at the pumping stations has had to be closed down for the purpose of relaying mains, repairing burst mains, hydrants, etc., and during such periods there has been very grave risk of serious fires resulting. Improvised arrangements have been organised by the Fire Brigade to cope with such emergencies, and fortunately such arrangements have so far been successful in dealing with any fires which have occurred, but the possibility of serious conflagrations occurring during such periods gives rise to considerable apprehension.

It is regrettable that more sluice valves for the purpose of dividing up the water system into different areas are not provided. Under existing conditions when it is required to make repairs, practically the whole system has to be closed down, or the water pressure reduced to a minimum. The time taken to increase the pressure at the pumping station and before the benefit of the same results at a fire is appreciable, and on various occasions shortage of water has been experienced, particularly at the commencement of a fire at times when low pressure only has been maintained at the pumping stations.

20. It is satisfactory to note that the waste of water from the unfiltered water hydrants is much less than in previous years and likewise the hydrants are in better condition.

21. Regarding the provision of a system of fire mains in the Chitpore-Cossipore area, I regret to have to report again that no water is available in this area except from the various tanks in the locality. These tanks are being filled up on sanitary grounds and for building purposes, and the water shortage in this area is a matter for serious concern. Chitpore-Cossipore abounds in serious fire-risks, and there is every possibility of very large fires occurring. I understand that a scheme for the provision of a water-supply in this area is under discussion, and that definite action may be taken at an early date.

22. The water scarcity in Howrah also gives rise to the greatest apprehension. For some considerable time I have been in communication with this municipality and have devised and suggested a satisfactory but inexpensive scheme for the provision of fire hydrants on the supply mains to the overhead reservoirs, but I regret to say that no progress has been made, which is no doubt due to the lack of funds available in this municipality.

There is little doubt that if a water-supply scheme for fire extinguishing is not provided in this area conflagrations will result, and whole districts may be devastated. Should a fire gain headway there is insufficient water to deal with it, and it is remarkable that more serious fires have not occurred in this area during the past few years. The locality is becoming very congested and serious fire-risks are numerous. I can only add that the seriousness of the situation has been remarked upon for many years.

23. **Fire Float.**—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite Prinsep's Ghat, and responded to 17 calls during the year.

24. **Street Fire Alarms, Telephones and Electrical Communication.**—I am pleased to be able to report that all street fire alarms, telephones, etc., have been maintained in a highly satisfactory state of repair and efficiency by the Bengal Telephone Company, and the thanks of the Fire Brigade are due to the telephone operators and the staff of the Company for their prompt attention and ready assistance at all times.

25. **Inspection Department.**—Theatres, cinemas and places of public amusement are inspected by an official of the Corporation of Calcutta under the Municipal Act. Many Indian theatres are badly designed, and the construction is bad; overcrowding frequently takes place, and I would emphasise here the necessity for greater adherence to the Corporation by-laws for theatres and stricter supervision. Chemical fire extinguishers are frequently found out of order, water buckets empty. Generally speaking the European theatres and cinemas are reasonably safe so far as the risk from fire is concerned.

26. In connection with the Licensed Warehouse and Fire Brigade Act I of 1893, 5,460 inspections of warehouses have been made during the year. Four hundred and forty-seven applications and complaints have been attended to and disposed of. One hundred and fifty-four prosecutions were made under section 14 of Act I of 1893, which resulted in 67 persons being fined, the fines aggregating in all to Rs. 1,115. Thirty persons were warned and discharged, 25 persons were acquitted, 11 cases were withdrawn and 21 cases were filed owing to there being no trace of the parties concerned.

27. **General.**—The Calcutta Fire Brigade protects the City of Calcutta and the Municipality of Howrah, and may attend fires outside the boundaries of the above (not exceeding a radius of 6 miles from the central fire station, provided appliances can be spared and on payment of a prescribed fee). The total area protected is approximately 120 square miles.

28. **Ambulance Department.**—The Motor Ambulance Department has done excellent work during the year under review, and there is no doubt that this service is thoroughly appreciated by the public. Its activities are rapidly increasing, no less than 15,861 calls having been received during the past 12 months. It is unsatisfactory to note that there was delay in responding to many calls owing to the fact that all the ambulances were engaged on other calls. Usually the delay amounted only to a few minutes as ambulances were sent on to these calls immediately on their return to their stations, but it is hoped that the strength of the department will be materially increased at no far distant date so as to obviate any delay of this nature in future.

Owing to no accommodation being available in hospital 1,180 cases had to be taken from hospital to hospital in search of beds for patients. Of these cases accommodation for 993 was eventually found and the patients admitted to hospital but the remainder had to be returned to their homes either by ambulances or by some other means of conveyance. It has now been found necessary to require persons requisitioning ambulances to make previous arrangements for accommodation of patients in hospitals before ambulances respond to calls for ordinary cases of sickness in houses.

The figures quoted above include instances where injured or sick persons have been picked up on the streets and taken to hospital. It is no unusual occurrence for such cases to be taken in an ambulance to even 6 or 7 hospitals in search of accommodation.

Street beggars have been a great strain on this department, and ambulances have been occupied no less than 1,633 hours in dealing with cases of this nature.

It is regrettable that ambulances are frequently requisitioned unnecessarily even by doctors for cases not requiring the use of an ambulance, and it is hoped that in future the public will not summon ambulances if a patient can be removed to hospital by other means.

Such improper use of the ambulances often incurs delay in responding to urgent and necessary calls.

Appendix VIII gives a brief summary of the work done, and Appendix IX gives the rules governing the department.

The staff consists of 10 drivers and 20 attendants with 12 motor ambulances. Several of these machines have been in commission for 9 years and there is a provision for 4 new ambulances in the Corporation budget for 1929-30.

The department is maintained financially by the Government and the Corporation of Calcutta.

The receipts during the year amounted to Rs. 3,699 and the total expenditure was Rs. 56,818. The contribution from the Government was Rs. 11,800 and the balance of Rs. 41,319 was paid by the Corporation of Calcutta.
